2025

OFFICIAL AIR CONDITIONING
& AIR QUALITY PARTNER

This document is dedicated to those looking for advanced and specialized solutions for heating and cooling.

Solutions able to increase the comfort level in the places where we live, work and spend our free time.

Complete year round systems, focused on substantial energy savings and less dependency on the fossil fuels used by traditional HVAC solutions, such as natural gas or oil.

INSPIRING SOLUTIONS

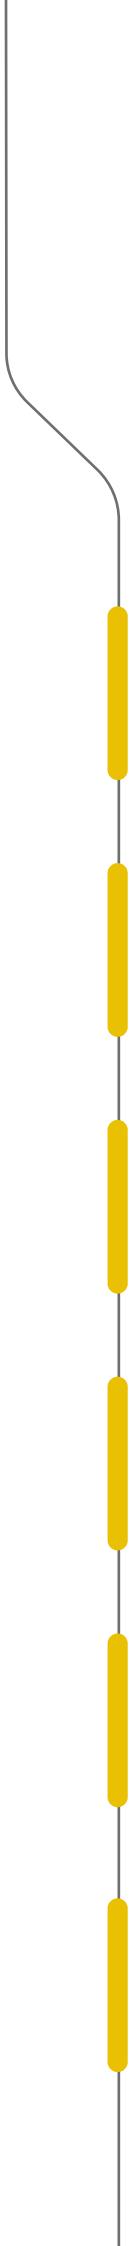

This document is printed every year and presents all Clivet's products with the aim of providing a basis for decisions and evaluations.

More detailed information, updated regularly, is available in the "SYSTEMS AND PRODUCTS" area at www.clivet.com and on Clivet Apps, where they can be downloaded free of charge.

To keep up to date with Clivet news, follow us on our social networks:

NATURAL COMFORT

REASONS TO BELIEVE IN A
MORE COMFORTABLE FUTURE,
THANKS TO CLIVET.

Over 35 years of expertise in heat pumps.

Clivet has been leading the way in heat pump innovation since 1989. We were among the first to recognise the technology's potential for efficient and sustainable comfort – and our dedication to innovation hasn't wavered since.

Purpose-built solutions.

Clivet engineer its solutions from the ground up to offer specialised systems designed for a diverse range of applications and environments. Boasting the widest range of heat-pump solutions, our flexible, adaptable approach ensures a perfect fit for your specific requirements.

Crafted in Europe.

As a European company from the start, we understand the unique needs and demands of this market. Our heat pump solutions are designed with your comfort in mind, considering everything from climate variations to specific building requirements.

A simplified product experience

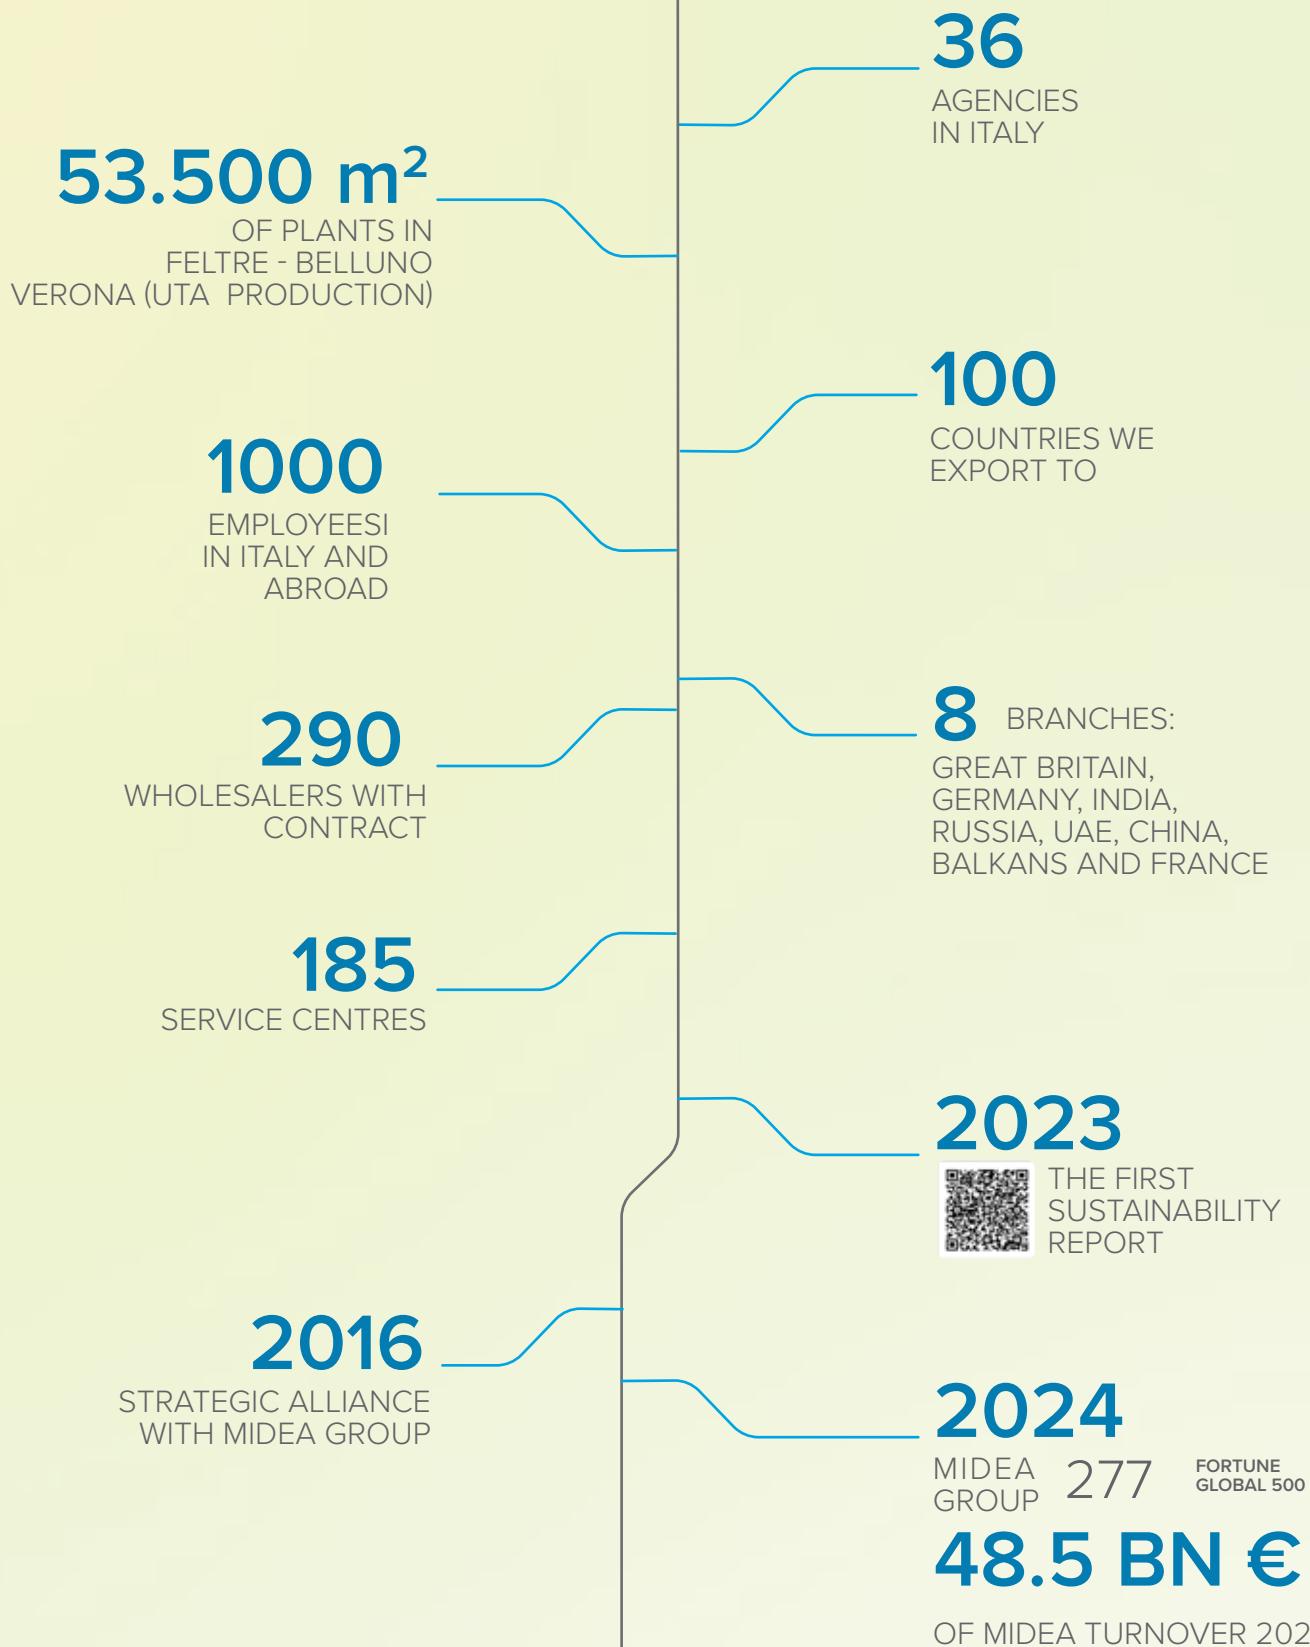

Clivet systems streamline every step, from simplified design and installation to effortless operation and control. Engineered for efficiency from the ground up, Clivet delivers unparalleled ease of use, lower operating costs, and a lasting commitment to sustainability.

COMFORT FOR THE
PLANET & PEOPLE

OUR NUMBERS

CLIVET

Choose the right system

SPLIT systems are synonymous of comfort, performance and elegance. In order to make the best use of them, it is important to select the capacity of the air conditioner according to the room in which it will be installed.

An oversized system does not guarantee a uniform temperature or a good dehumidification and operates inefficiently by alternating continuous start/stop, wearing out quickly.

An undersized system cannot meet the comfort requirements, has a bad performance and always works at 100%.

An indicative sizing of the system can be done in this way:

Single Split / Light Commercial

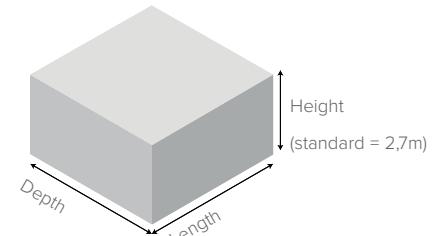

One outdoor unit for each room to be air conditioned.

Required capacity [W] = Room volume [m^3] x 40/1.000

NOTE:

choose the size of the system with the maximum capacity greater than the required capacity.

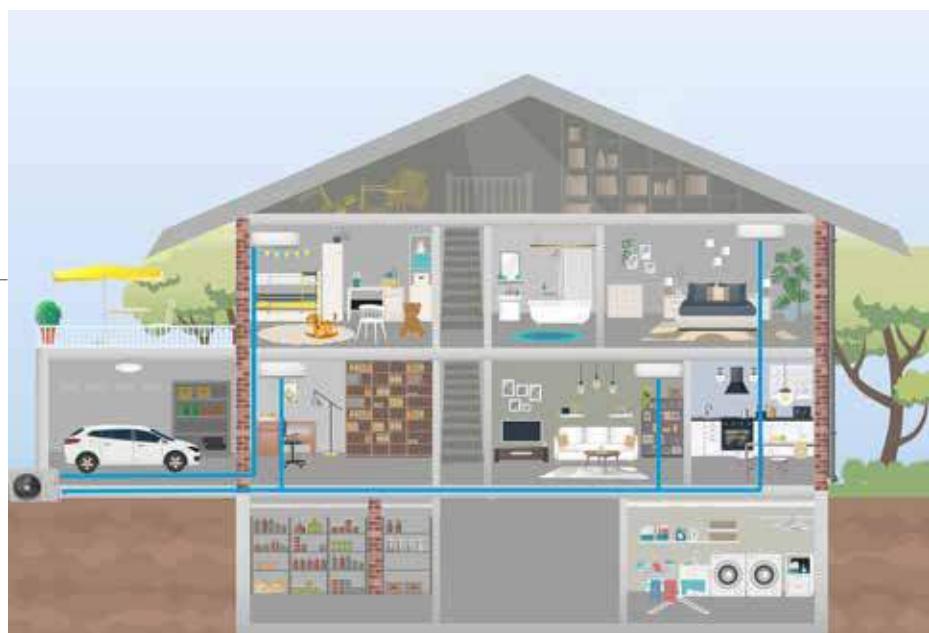

Room volume = length x depth x height

Typical rooms (example with Cristallo):

Room	Surface [m^2]	Volume [m^3]	Required C [kW]	Size
Dining room	35	94,5	3,78	35M
Living room	50	135	5,40	53M
Room	25	67,5	2,70	27M

Set	Unit	Version			Capacity and Efficiency					Energy class	
		Code	Power supply	kW	Cooling Btu/h	SEER	kW	Heating Btu/h	SCOP	Cooling	Heating
27M	IDU	IMAI-Y 27M	89682314	230/1/50	2,64 (1,03÷3,22)	9.000 (3.500÷11.000)	8,80	2,64 (1,03÷3,22)	9.000 (3.500÷11.000)	4,50	A+++ A++
	ODU	MMA1-Y 27M	89682319	230/1/50							

Space-saving solution ideal for air conditioning multiple rooms.

- Choose how many rooms need air conditioning: number of outdoor unit connections
- For each room: Required power [W] = Room volume [m^3] x 40/1.000
- Choose the size of the outdoor unit (ODU): sum of the required capacities of each air-conditioned room at the same time

Application examples:

- Rooms to be air-conditioned: 4 = outdoor unit with at least 4 connections
- Calculation of the required capacity for each room

Area	Room	Surface [m^2]	Volume [m^3]	Required C [kW]	Size (IDU)
Sleeping area	Room	25	67,5	2,70	27M
	Studio	20	54	2,16	20M
Day area	Dining room	35	94,5	3,78	35M
	Living room	50	135	5,40	53M

tot
11,34 kW

Set	Code	Version	Connectable Indoor Units	Capacity				Energy class
				kW	Cooling Btu/h	Heating kW	Btu/h	
MU2-Y 105M	89112261	QUADRI (1÷4)	10,5 (2,1÷10,5)	36.000 (7.000÷36.000)		10,8 (2,3÷11,1)	37.000 (8.000÷38.000)	A++ A+

Selection of outdoor unit:

Required capacity = $2,160 + 3,780 + 5,400$ (rooms of the day area to be air-conditioned at the same time) = 11,340 W.

The best choice is the MU1-Y 105M unit.

Functions

CLIVET

ENERGY SAVING

1W Stand-by (Single Split IDU)

The consumption in stand-by mode of electrical equipment can total up to 10% of the energy bill and causes an increase in CO₂ emissions. The wall-mounted indoor units boast the 1 W Stand-by technology, which reduces wastages down to -80%, well below the average for products on the market.

On average, the energy saved up in one year can power:

Sleep

The Sleep function allows to save energy during the night:

COOLING: the set temperature increases by 1°C/h for 2 hours and the fan of the indoor unit is set at low speed.

HEATING: the set temperature decreases by 1°C/h for 2 hours and the fan of the indoor unit is set at low speed.

Note: the Sleep function terminates 7 hours after its activation and the unit switches off.

The Sleep function can be activated from a standard control:

ECO/Gear

ECO/Gear is an energy saving function that allows the user to set standard operation profiles, reducing the unit's capacity to standard profiles of 100% / 75% / 50% / ECO. The ECO profile in particular sets an operating cycle of 8 hours with extremely low consumption, particularly suitable when out of the house or at night.

COMFORT

Follow Me

The remote control and the wired control have an integrated temperature sensor that measures the surrounding temperature. The Follow Me function manages the operation of the air conditioning unit by adjusting it with this set-point, monitoring the indoor temperature more accurately and guaranteeing improved comfort.

The Follow Me function can be selected from a standard control:

Turbo

Turbo function can boost cooling or heating speed in a short period, and makes the room cool down or heat up rapidly.

The Turbo function can be activated from a standard control:

Mute Operation

The Mute Operation function enables you to optimally enjoy your moments of relax without having to interrupt your beauty sleep, by deactivating the buzzers and dimming the luminous display.

The Mute Operation function can be activated from the standard control by pressing the LED button.

Functions

COMFORT

Stepless Indoor Fan Speed / 12 Grades Speed

- ✓ The stepless indoor fan speed allows the user to set a speed from one to 6 standard speeds (1% / 20% / 40% / 60% / 80% / 100%) or, by holding down the button on the remote control, change the speed in steps of 1%.
- ✓ The 12-speed fan allows the user to set one speed among the 3 standard ones (High / Medium / Low). Each of these, depending on how far you are from the set temperature, has 3 sub-speed settings that the unit adjusts itself.

In addition to the standard speeds described and AUTO mode, the unit also independently manages profiles dedicated to Turbo, Silent and Anti-Cold Air modes.

Anti cold air

When the unit is set to Heating, the logic does a temperature check of the indoor exchanger before activation. The indoor unit's fan is activated only when it detects that the exchanger is hot enough not to cause cold air to spread.

Multidirectional airflow

The air conditioning unit can distribute the flow of air in multiple directions: to better direct the flow within the room, it electronically adjusts the direction of the slats both horizontally and vertically.

The standard control can be used to easily set the desired louver position.

RELIABILITY

Refrigerant Leakage Alarm

The units are equipped with an automatic system to protect the compressor that detects possible refrigerant leakages, and automatically switches off the system in case of anomalies.

Note: The indoor unit's display presents the corresponding error code, so as to facilitate and speed-up the maintenance intervention.

Emergency Function

The Emergency using allows the system to continue operating even when an internal sensor has failed: the unit shows the error code on the display, but continues in an emergency operating mode before stopping.

Technical room conditioning

The air conditioning units are also able to satisfy the needs of technical rooms, thanks to the possibility of operating in cooling mode even with low outdoor temperatures, in other words, up to -15°C and 50°C .

N.B.: the set-point temperatures that can be selected through the remote control range between 17°C to 30°C . If the applications require other values, the remote ON/OFF function can be used.

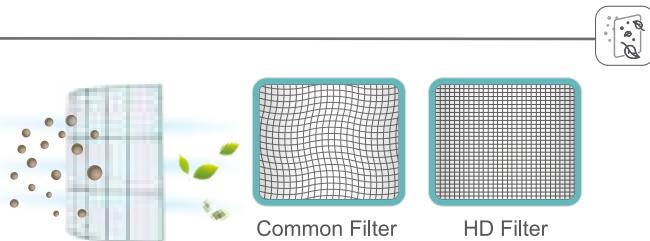

Functions

CLIVET

HEALTH

High Density filter

The high-density filter allows for removing up to 80% of dust and pollen: this makes it far more effective compared to traditional dust filters.

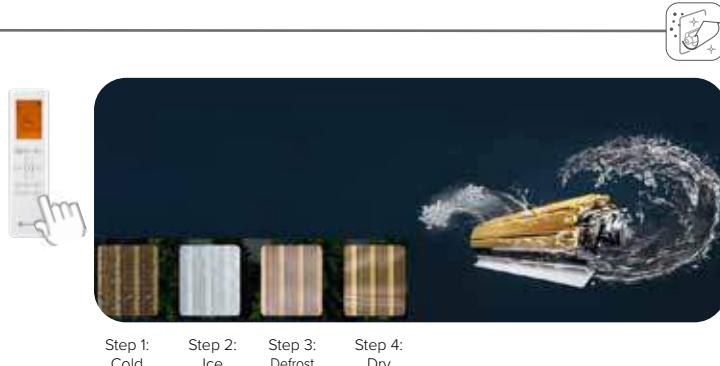

i-clean

Dries and cleans the exchanger of the indoor unit, preventing the formation of mould or the emission of unpleasant odours into the environment.

The cycle includes:

- ✓ Cooling until ice forms on the exchanger (17 minutes)
- ✓ Heating to defrost the exchanger (6 minutes)
- ✓ Ventilation to dry the exchanger (7 minutes)

CONVENIENCE

Control systems

Besides the standard remote control the units can be managed with devices designed to satisfy any need:

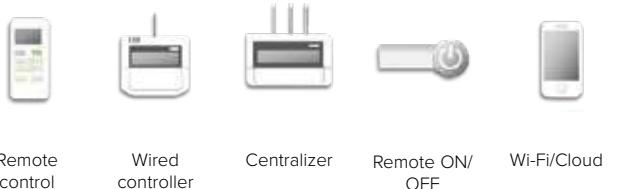

- ✓ Wired control per single unit
- ✓ Wired centraliser, capable of managing up to 64 indoor units with a weekly scheduler
- ✓ Data converter, capable of managing up to 64 indoor units via Cloud
- ✓ Gateways, which allow for inserting the systems in BMS management software

BACnet

Modbus

LonWorks

Remote control

Wired controller

Centralizer

Remote ON/
OFF

Wi-Fi/Cloud

Auto-restart

When the power fails, the unit keeps the last settings in memory and resumes operation in the same way when restored.

CLIVET COMBINES THE BEST TECHNOLOGY

with an excellent product quality and
performance certification system

The innovation for which Clivet has always stood out, is supported by an industrial framework that has adopted the standards envisaged by ISO 9001, since 1996, guaranteeing a quality management system designed to control company processes so that they are targeted at improving the efficacy and efficiency of the organisation, as well as at client satisfaction.

In 2021 the Innovation Centre, Clivet's new centre for technological innovation, was officially opened with two new test rooms where Clivet can carry out functional, performance, acoustic, vibration and stress tests, with air temperatures from -20°C to +60°C, for units up to 2.5 MW with new refrigerants with a low environmental impact. Customers can attend the tests both at the Innovation Centre and online.

Clivet uses latest generation sheet metal folding, press and cutting machines for the mechanical production of its components. High product quality standards are also guaranteed by the use of patented electronic controls.

Clivet only uses non-toxic and low environmental impact alloys for soldering, insulation and gases that comply with the strictest European standards, and the best components available on the market.

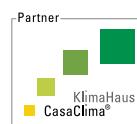

They optimise the solution based on the needs of the **various applications** and integrate it in specialised products and in complete dedicated systems:

With the aim of providing Customer satisfaction, Clivet S.p.A. has supplemented and certified its Quality, Environment and Safety Management Systems, in accordance with the ISO 9001, ISO 14001 and ISO 45001 International Standards.

Clivet is committed in promoting the green building principles and has become a member of GBC Italia. This organization collaborates with **GBC Italia**, the U.S. nonprofit organization that promotes worldwide the **LEED®** system of independent certification.

In 2015, Clivet became a partner of **CasaClima**, as a result, Clivet is now part of a network of companies renowned for their technical expertise and constant focus on sustainable home management. Where applicable.

KEYMARK is a mark recognized in many European countries for the provision of incentives for the installation of heat pumps for room heating and the production of domestic hot water.
The countries that recognize the mark and the Certified Products are available on <https://keymark.eu/en/products/heatpumps/heat-pumps> Where applicable.

Clivet participates in the EUROVENT “Liquid Chilling Packages and Hydronic Heat Pumps”, “Rooftops”, “Air Handling Units”, “Fan Coil Units” and “VRF” Certification programmes. The products concerned feature in the EUROVENT guide to certified products and on the website www.eurovent-certification.com. The programmes cover up to the limits set by the purpose of each programme. Where applicable.

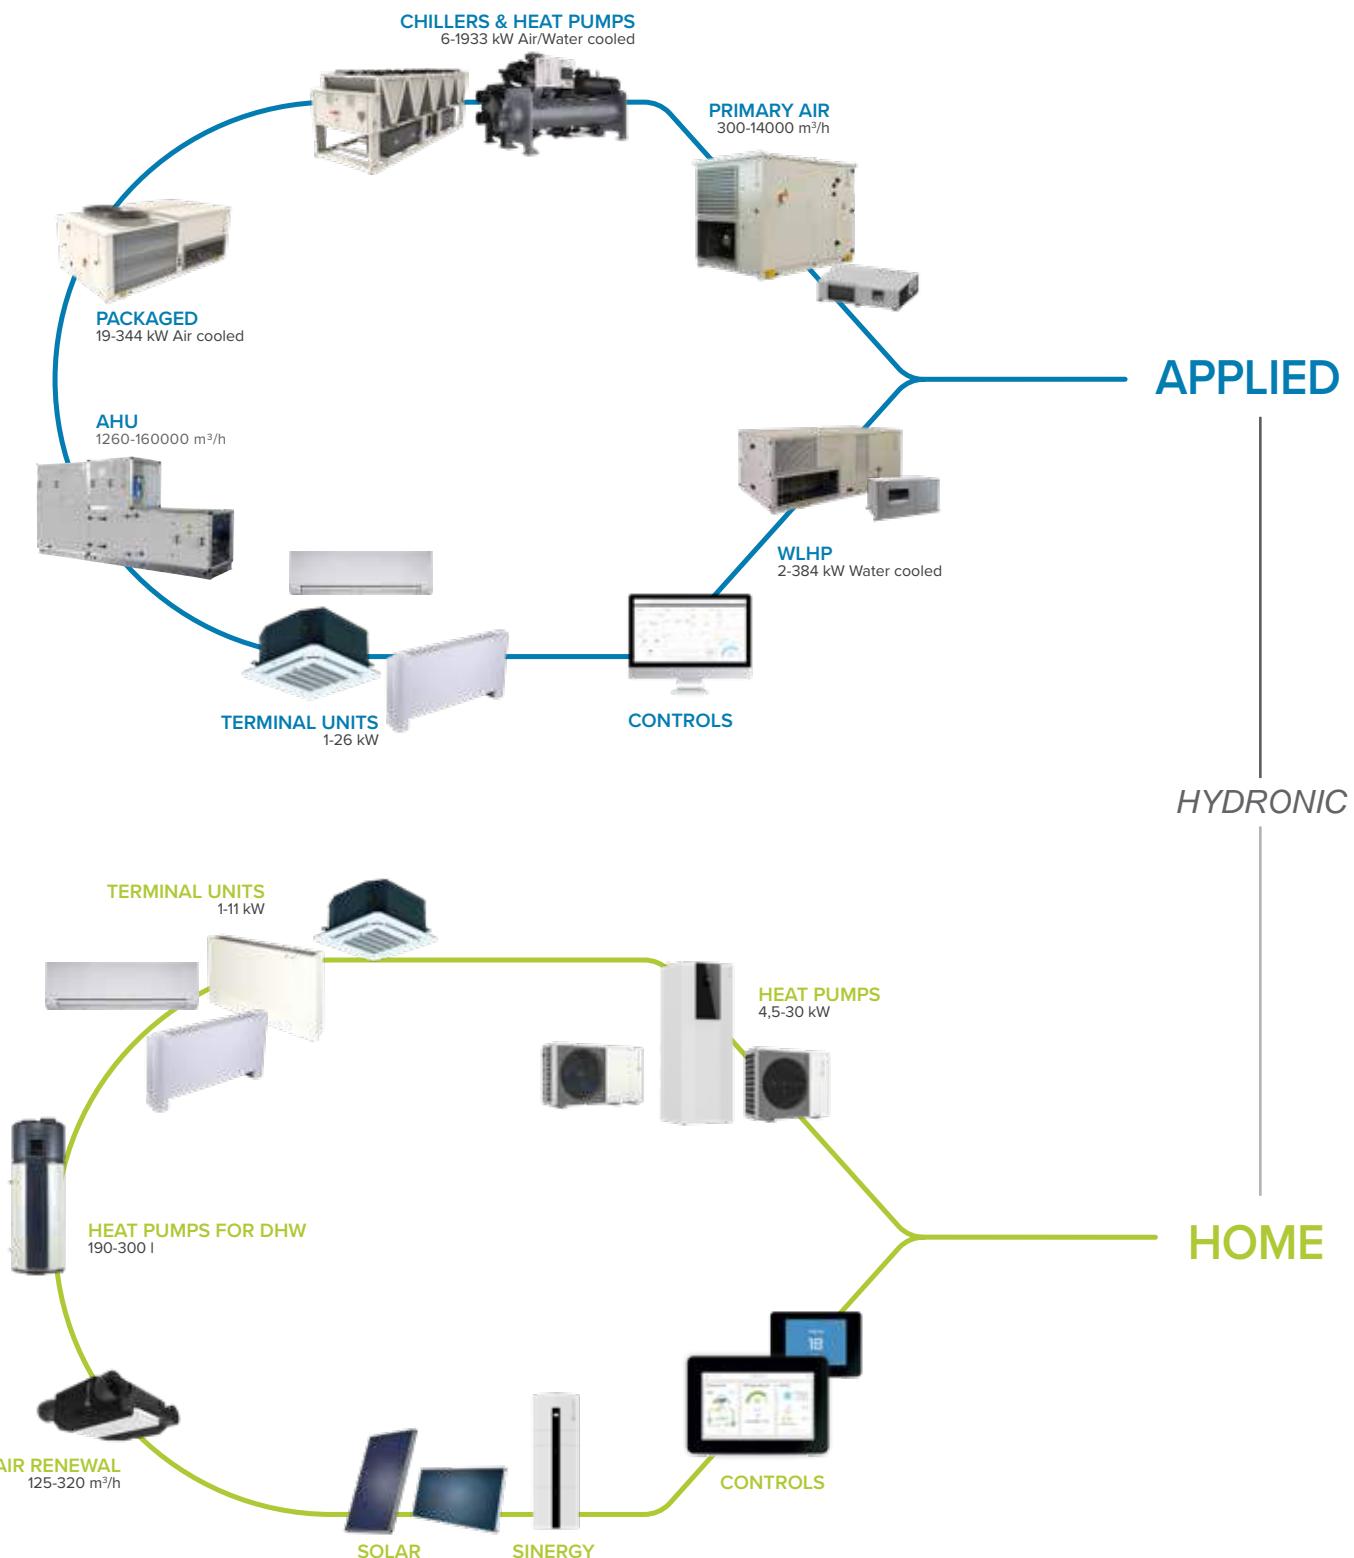

The wide range of Clivet products and complete systems comply with the requirements of the implementing measures for ErP (Energy related Products) Directives 2009/125/EC (Eco-design) and 2010/30/EU (Energy labelling), whose purpose is to reduce the energy consumption of products for heating, cooling, ventilation and hot water production, encouraging the user towards energy-efficient choices.
Directives 2009/125/EC and 2010/30/EU include the following Regulations: (EU) 206/2012, (EU) 626/2011; (EU) 811/2013, (EU) 812/2013, (EU) 813/2013, (EU) 814/2013; (EU) 1253/2014, (EU) 1254/2014; (EU) 2016/2281.

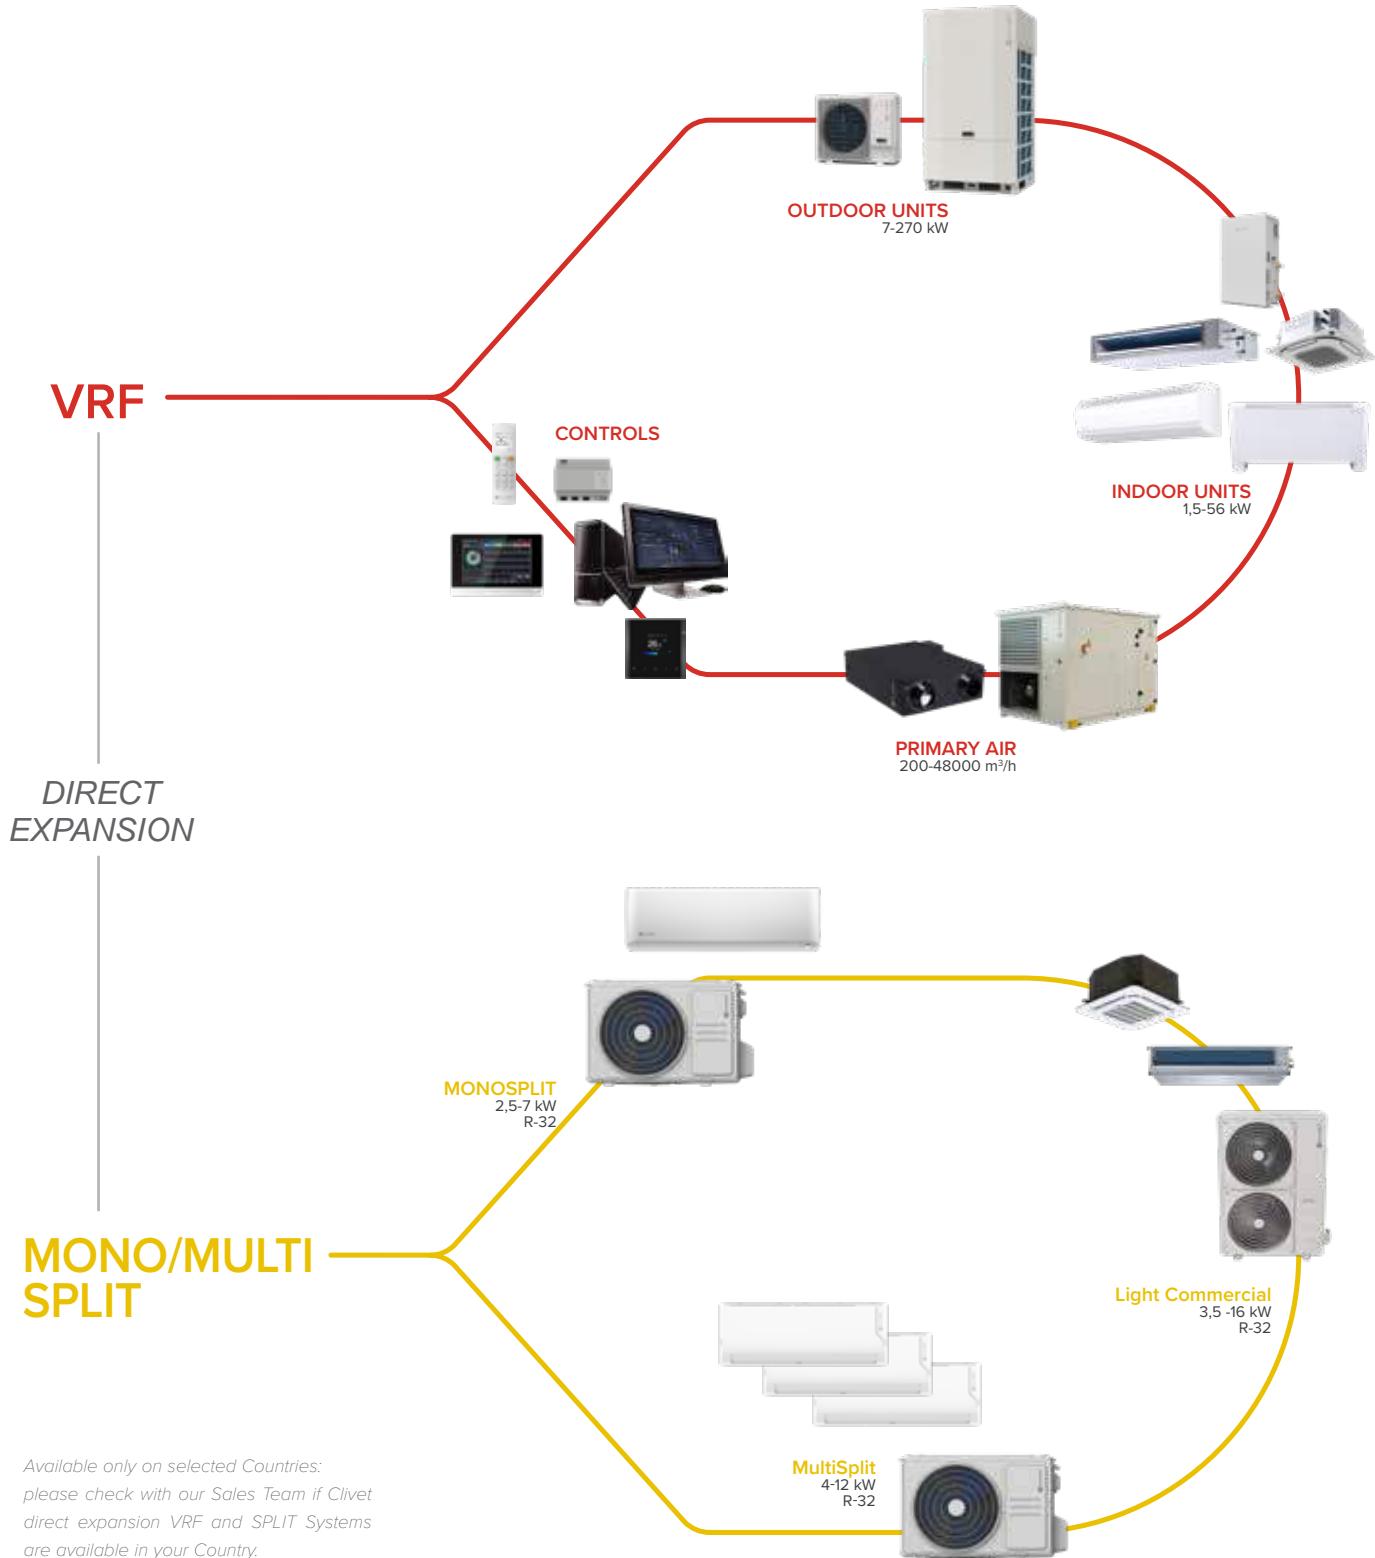

Clivet is involved in the BEYOND GREEN project to promote sustainability and the circular economy together with the other members of SAFE, the consortium system for the circular economy which works to raise public awareness regarding environmental issues, management and valorisation waste, education and training on environmental protection, research on environmental protection.

STELVIO 27M ÷ 35M

MONOSPLIT

SINGLE Split with hiwall indoor unit

WHY CHOOSE STELVIO?

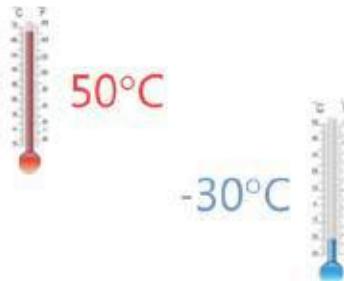

- ✓ Smart management as standard: via smartphone with the NetHome Plus App and voice control setup with Amazon Alexa and Google Assistant
- ✓ Extremely extended operating ranges: Heating -30°C ÷ +30°C; Cooling -15°C ÷ +50°C
- ✓ Humidity management: the unit dehumidifies according to the customer's humidity setting
- ✓ Comfort in any situation thanks to the "Intelligent Eye" sensor

ULTRA-HIGH ENERGY EFFICIENCY

STELVIO is equipped with ultra-high energy efficiency technology, which makes it one of the most efficient air conditioners on the market. Unsurpassed comfort, with low electricity consumption and related costs.

	SCOP	SEER
	5.3	9.2

EXTREMELY EXTENDED OPERATING RANGE

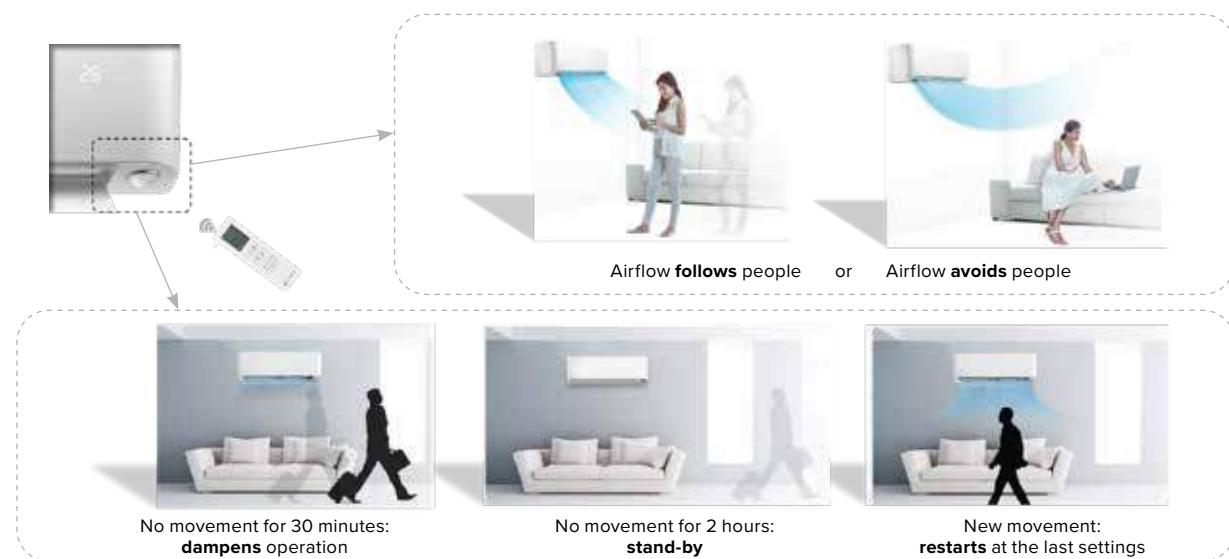

HUMIDITY MANAGEMENT

The unit is now equipped with a humidity probe that allows it to manage the new humidity management function. You can set a relative humidity in intervals of $\pm 5\%$, in a range of 35÷85%: if the set is lower than the value detected by the probe, the unit will start dehumidifying.

The function is also available from the App.

CERVINO 27M ÷ 35M

MONOSPLIT

SINGLE Split with hiwall indoor unit

WHY CHOOSE CERVINO?

- ✓ R290 technology: combining high performance with maximum respect for the environment
- ✓ ALTO Panel Design with strong but elegant lines, in matt finish with contrasting logo
- ✓ Smart management as standard: via smartphone with the NetHome Plus App and voice control setup with Amazon Alexa and Google Assistant

MULTI-DIRECTIONAL AIRFLOW

The air conditioning unit can distribute the flow of air in multiple directions: to better direct the flow within the room, it electronically adjusts the direction of the louvers both horizontally and vertically.

THE standard control can be used to easily set the desired louvers position.

MONOSPLIT

FOR THE FUTURE

Cervino is the split designed with the environment and the future in mind.

The R290 refrigerant is in fact a natural gas with excellent thermodynamic properties and already complies with the most stringent European regulatory developments.

This technology makes it possible to respect the environment and achieve performance that guarantees optimum comfort.

FOLLOW-ME

The system gives priority to the temperature sensor in the remote control and adjusts itself accordingly.

1. Standard temperature sensor
2. The temperature sensor can be activated

RG10A-D2S-BGEF Infrared remote control for CRISTALLO 2 / EZCool / BOX 2 / CONSOLE 3 / DUCT 2 / C&F 2 indoor units

NWMX Wi-fi kit for indoor units

CRISTALLO 2 27M ÷ 70M

MONOSPLIT

SINGLE Split with hiwall indoor unit

WHY CHOOSE CRISTALLO2?

- ✓ ALTO Panel Design with strong but elegant lines, in matt finish with contrasting logo
- ✓ Purification filter: active against odours, dust, VOC, pollen, spores, bacteria
- ✓ Smart management as standard: via smartphone with the NetHome Plus App and voice control setup with Amazon Alexa and Google Assistant
- ✓ SINGLE Split/MULTI Split compatible

MULTI-DIRECTIONAL AIRFLOW

The air conditioning unit can distribute the flow of air in multiple directions: to better direct the flow within the room, it electronically adjusts the direction of the louvers both horizontally and vertically.

THE standard control can be used to easily set the desired louvers position.

BREEZE AWAY

This function prevents the air flow from being directed directly at people, creating discomfort.

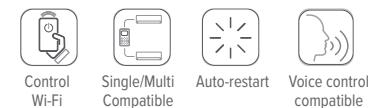

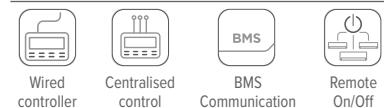

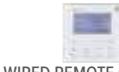

The fan moves at minimum speed.

PURIFICATION FILTER

- ✓ High density filter: Removes larger dust and microbes, protects other filters. It is washable and reusable
- ✓ Cold catalyst filter: Oxidises various hazardous gases (such as VOC) by decomposing them into inert substances such as H₂O or carbon dioxide. It also limits odours
- ✓ Activated carbon filter: Chemically absorbs microparticles and bacteria, cleaning the air and eliminating odours
- ✓ Silver ion filter: Continuously releases silver ions to eliminate up to 99% of airborne bacteria, while also limiting their growth and proliferation. Also active on viruses

SINGLE Split with hiwall indoor unit

WHY CHOOSE EZCOOL?

- ✓ Silent operation with low power consumption
- ✓ Option of Smart management: via smartphone with the NetHome Plus App and set up for voice control with Amazon Alexa and Google Assistant
- ✓ SINGLE Split/MULTI Split compatible

FOLLOW-ME FUNCTION

The system gives priority to the temperature sensor in the remote control and adjusts itself accordingly.

MONOSplit

1. Standard temperature sensor
2. Temperature sensor can be activated

CONTROL BY SMARTPHONE

Thanks to an optional accessory, it is possible to set the temperature, ON/OFF and timer of the unit from the smartphone.

Outdoor unit for MULTISPLIT systems

WHY CHOOSE OUTDOOR UNIT-SM 2?

- ✓ From 1 up to 5 connectable indoor units, also of different types
- ✓ Rapid installation: automatic correction of the connection errors
- ✓ Extremely extended operating ranges: Heating -15°C ÷ +24°C; Cooling -15°C ÷ +50°C

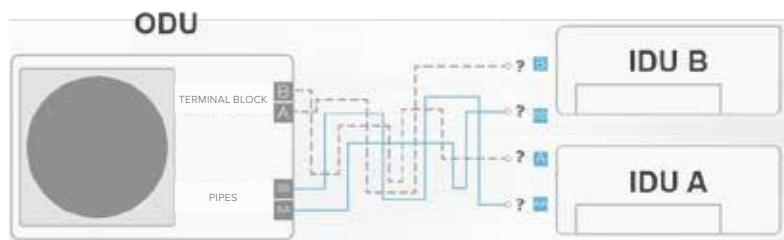

INCREASED INDOOR UNIT RANGE

AUTOMATIC CORRECTION FUNCTION OF PIPING/WIRING ERRORS

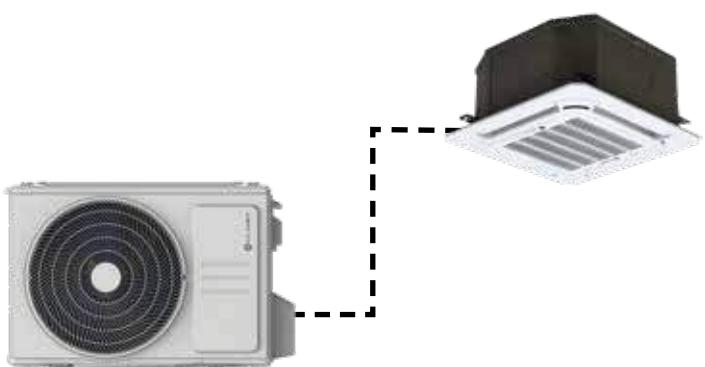

The unit reassigned the communication, correcting any wiring errors.

Note: Press the «CHECK» button for 5 seconds until «CE» appears on the display.

EVEN ONLY ONE COLLECTABLE IDU

Possibility to add more indoor units after the first installation.

COMFORT **CONVENIENCE** **RELIABILITY**

CRISTALLO 2 27M ÷ 70M

MULTISPLIT

Hiwall indoor unit for MULTISplit systems

WHY CHOOSE CRISTALLO2?

- ✓ ALTO Panel Design with strong but elegant lines, in matt finish with contrasting logo
- ✓ Purification filter: active against odours, dust, VOC, pollen, spores, bacteria
- ✓ Smart management as standard: via smartphone with the NetHome Plus App and voice control setup with Amazon Alexa and Google Assistant

MULTIDIRECTIONAL AIRFLOW

The air conditioning unit can channel the air flow in different directions to better direct the flow inside the environment

Test conditions:
according to EN14511 / EN12102Cooling: indoor air temperature 27°C DB/19°C WB; outdoor air temperature 35°C DB/24°C WB;
Heating: indoor air temperature 20°C DB/15°C WB; outdoor air temperature 7°C DB/6°C WB.

Data declared according to UE 626/2011 delegated regulation

accessories**Standard****RG10A-D2S-BGEF**

Infrared remote control for CRISTALLO 2 / EZCool / BOX 2 / CONSOLE 3 / DUCT 2 / C&F 2 indoor units

Options**T-MBQ4-03B4**

Panel for Box 2 650x650, 360° air delivery, round hole grill. (Mandatory accessory, to be selected separately)

WF-60A1-C

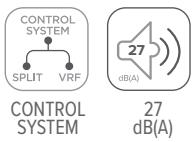

Smart port kit for the hiwall indoor unit management via Wi-Fi (it includes the adaptor and the USB key)

Control Systems

(see dedicated section)

DUCT 2 27M ÷ 70M

MULTISPLIT

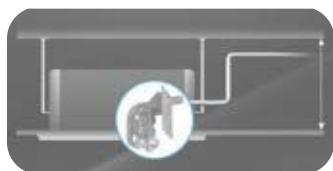

Ductable indoor unit for MULTISplit systems

WHY CHOOSE DUCT 2?

- ✓ MULTISplit/Light Commercial compatible
- ✓ Constant airflow function: the fan adapts the static pressure to the pressure drops
- ✓ Air return from the back or from below modifiable directly from the building site
- ✓ Integrated condensate discharge pump, 750 mm H₂O of static pressure

BUILD-IN DRAIN PUMP

Available pressure:
750 mm H₂O

FLEXIBLE INSTALLATION

The air intake can be modified in the building site:

- air intake from rear
- air intake from bottom.

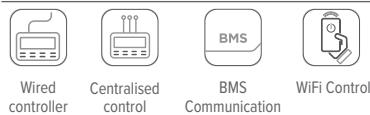

CONSTANT AIRFLOW CONTROL

With constant air volume control technology, optimal airflow cools every room appropriately with both short pipes and long pipes.

CONSOLE 3 27M ÷ 53M

MULTISPLIT

Console indoor unit for MULTI Split Systems

WHY CHOOSE CONSOLE 3?

- ✓ MULTISplit/Light Commercial compatible
- ✓ Compact dimensions suitable for installation under a window
- ✓ Selection of active air supply nozzles according to the situation

SUPERSILENT

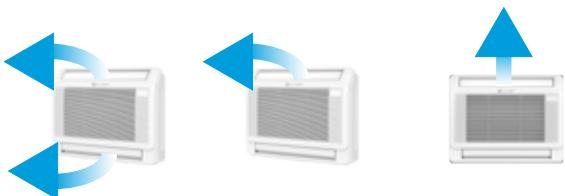

Thanks to the new double tangential fan system, noise is reduced to the lowest of its category.

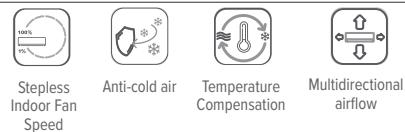

DOUBLE FLOW FOR FRONT RETURN AIR SUPPLY

Selectable air supply:

1. From the bottom and from the top
2. From the top only
3. Return air from the front

accessories

Standard

RG10A-D2S-BGEF

Infrared remote control for CRISTALLO 2 / EZCool / BOX 2 / CONSOLE 3 / DUCT 2 / C&F 2 indoor units

Options

NWMX

Wi-fi kit for indoor units

MKCX

Multifunction board that makes the indoor unit available for Remote ON / OFF, Alarm port and XYE Port (required for connection of Wired controller, Centralized wired controller, Data Converter, BMS Gateway)

The ON-OFF/Alarm/XYE/Wi-Fi port functions can be used simultaneously

Control systems

(see dedicated section)

CEILING & FLOOR 2 53M

MULTISPLIT

CONTROL SYSTEM

36 dB(A)

Ceiling and floor indoor unit for MULTISplit systems

WHY CHOOSE CEILING&FLOOR 2?

- ✓ MULTISplit/Light Commercial compatible
- ✓ Vertical or horizontal, ceiling or floor installation
- ✓ Predisposition to operate with a fresh air fraction

SLIM DESIGN

Redesigned internal parts for durability and a slimmer chassis.
The new air conditioner is slimmer and lighter than before.

MULTIDIRECTIONAL AIRFLOW

Vertical air flow and horizontal airflow can be adjusted by remote controller to direct air flow to every corner of the room.

Light Commercial

WHY CHOOSE A LIGHT COMMERCIAL SYSTEM?

- ✓ Systems up to 16 kW, the ideal solution for air conditioning in commercial zones such as offices, banks and meeting rooms,
- ✓ TWIN configuration for a more comfortable environment
- ✓ Can be managed with Wi-Fi, Centralised controllers, data converters or BMS systems

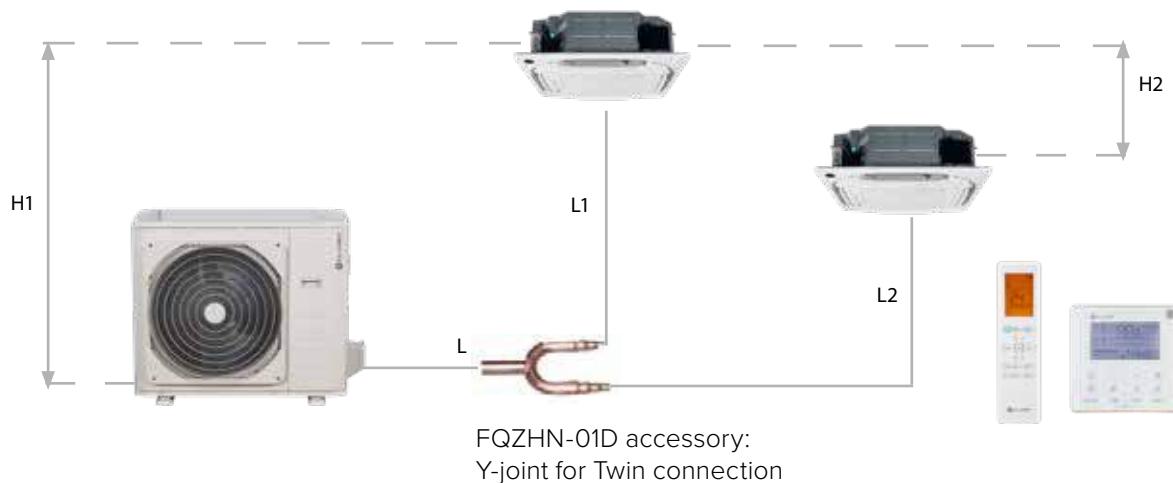

OUTDOOR/INDOOR UNIT COMBINATION

T = Compatible with TWIN system

A COMPLETE SYSTEM FOR LIGHT COMMERCIAL APPLICATIONS

TWIN CONFIGURATION FOR IMPROVED AIR DISTRIBUTION IN THE ROOM

	[m]
Total lenght	65
Length Piping	L+Max(L1,L2)
Max. length of the single lines	15
Max. length difference between lines L1-L2	L1,L2
Difference in height	10
Max. level difference between indoor - outdoor units	L1,L2
H1	20
Max. level difference between two indoor units	H1
H2	0,5

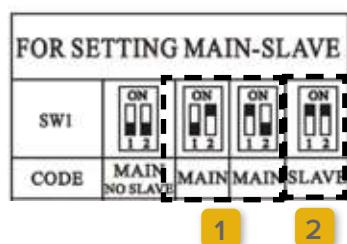

The TWIN indoor units are designed to be installed in one single room.
The control allows to control the main unit while the secondary one follows the on/off, set-point, operating modes and fan speed settings.

POSSIBLE COMBINATIONS

	Indoor unit 1	Indoor unit 2	OUTDOOR UNIT
	IA3-XY 70M	IA3-XY 70M	MC3-Y 140T
	IA3-XY 88M	IA3-XY 88M	MC3-Y 160T

Standard

RG10A-D2S-BGEF Infrared remote control for CRISTALLO 2 / EZCool / BOX 2 / CONSOLE 3 / DUCT 2 / C&F 2 indoor units

Optionals

WF-60A1-C Smart port kit for the not hinwall indoor unit management via Wi-Fi (it includes adaptor and USB key)

Control Systems (see dedicated section)

ACCESSORIES AND CONTROL SYSTEMS

BMS integration: welcome CONTROL4 NRG

All models with the XYE port (also through the dedicated Multifunction Kit) are now compatible with the new Single Unit Gateways: through the Modbus Gateway you can also benefit from the integration of SPLIT DX systems into CONTROL4 NRG, the heart of Clivet Smart Living.

Thanks to CONTROL4 NRG you will also have intelligent management of Clivet air conditioning systems, ensuring optimal comfort and best energy efficiency at all times. *

The gateways allow communication in Modbus, KNX and BACnet, three of the main communication protocols in the BMS landscape: this allows for easy cross-integration into supervisory systems even of third parties.

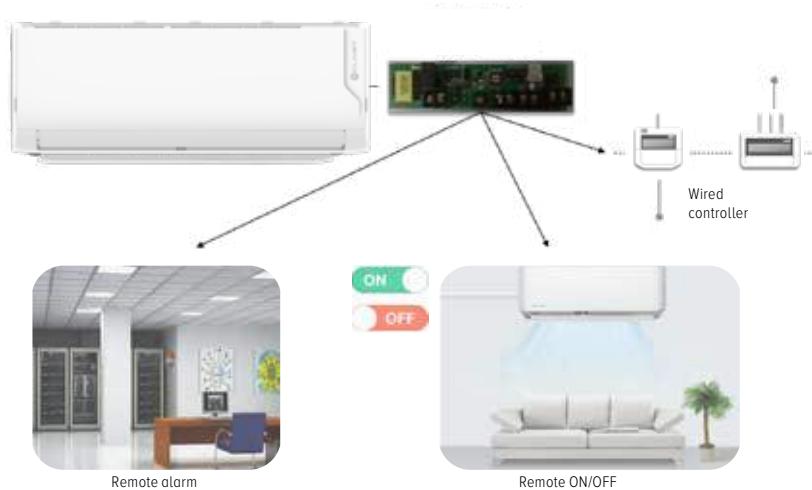

*For more information on CONTROL4 NRG, see the Home Guide

ACCESSORIES AND CONTROL SYSTEMS

Multifunction Kit

The multi-function kits offer several options for managing SPLIT systems. More specifically, they include an XYE communication port, which is used to connect:

- Wired remote control for single unit (KRJ-120X1-TFBG-E / KRJ-120X2-TFBG-E)
- Wired centralisers (CCM30-B / CCM-180A/WS / CCM-270A/WS)
- Communication systems based on the following protocols: Modbus, LonWorks and BACnet (IMMP-BAC(A), CCM18A, CCM18ANU, CCM-18A/N(A)).

	REMOTE ON/OFF	REMOTE ALARM	XYE PORT (COMMUNICATION)	CONTEMPORARY MANAGEMENT TO WI-FI
MBLCX (STELVIO)	●	●	●	●
MKSS2X (CRISTALLO 2)	●	●	●	●
MKCX (CONSOLE 3)	●	●	●	●

Note:

● = all the functions can be used simultaneously

ACCESSORIES AND CONTROL SYSTEMS

Individual control systems

RG10A-D2S-BGEF

Standard remote control for CRISTALLO 2 / EZCool / BOX 2 / CONSOLE 3 / DUCT 2 / C&F 2 units, with special features:

- ▶ ON/OFF - Operating mode - Temperature set-point - Fan speed - Louver direction
- ▶ Timer: allows for setting a countdown to switch the air conditioning unit on / off
- ▶ Follow Me: adjusts the air conditioning unit according to the temperature detected by the remote controller sensor
- ▶ Do Not Disturb (LED): deactivates the luminous display and buzzers of the air conditioning unit
- ▶ Self-cleaning: performs a cleaning cycle of the air conditioning unit's battery
- ▶ Turbo: conditions the air inside the room rapidly
- ▶ Management of the constant flow rate function for ductable indoor units
- ▶ Fan setting with speed changes of up to 1%
- ▶ Breeze away function (for some models only)
- ▶ ECO / Gear fuction

RG10P1-G2HS-BGEF

Standard remote control for STELVIO units, with special features:

- ▶ Temperature set-point with precision up to 0.5°C
- ▶ Fan setting with speed changes of up to 1%
- ▶ Activation / deactivation of the functions linked to the "Intelligent Eye" sensor
- ▶ Humidity management in 5% intervals
- ▶ ECO / Gear fuction

KJR-120X1-TFBG-E / KJR-120X2-TFBG-E

One-way wired controller with display, with standard remote control characteristics and these special features:

- ▶ Displays the room temperature
- ▶ Displays clock
- ▶ Management of the constant flow rate function for ductable indoor units
- ▶ Weekly scheduler (up to 8 settings/day of ON/OFF, mode, temperature, ventilation)
- ▶ Settable set-point limitation
- ▶ Mode change lock
- ▶ Integrated remote control receiver
- ▶ Control of individual louvers on box unit

ACCESSORIES AND CONTROL SYSTEMS

Kit Wi-Fi

Thanks to the Wi-Fi kit and the app compatible with iOS and Android systems, the operation of the air conditioning units can be controlled in any situation using either the remote controller or directly from a smartphone. Moreover, the app is designed to offer even more functions and enhanced ease of use.

Note: the kit is standard-supplied for STELVIO, CERVINO and CRISTALLO 2.

Note: To connect the Wi-Fi to the IDU that is not wall-mounted.

The Wi-Fi Kit is an option for Console (CONSOLE 3 USB only), Ductable (DUCT 2), Box (BOX 2) and Ceiling & Floor (CEILING&FLOOR 2) units using dedicated adapters:

The connection of the WF-601-C accessory excludes the possibility of using the XYE communication port (the remote ON/OFF function instead remains available).

The standard wire control can be used regularly by connecting it to the unit through the door in the WF-60A1-C accessory.

SLEEP FUNCTION

Energy saving by setting a night-time temperature profile.

AUTO-CHECK

Monitoring of the air conditioning unit's operating status. Visualisation of any anomaly codes.

WEEKLY SCHEDULE CONTROL

Setting of scheduled on / off functions during the week.

ACCESSORIES AND CONTROL SYSTEMS

Control systems for groups of units (SPLIT / VRF)

The control systems for groups of units allow for creating networks of SPLIT and VRF indoor units, also belonging to different systems.

Note: further functions are available with the VRF range

KJR-150A

Remote controller for groups of indoor units, allows for managing the basic functions of up to 16 indoor units:

- ▶ ON/OFF
- ▶ Operating mode
- ▶ Temperature set-point
- ▶ Automatic swinging of the slats
- ▶ Fan speed

Only with VRF:

- ▶ Timer

Note: the individual controllers can be used normally for managing the units.

Note: The accessory works in combination with one of the IDUs' standard remote controls.

It is not possible to operate the accessory with a remote control.

Not compatible with KJR-120X1-TFBG-E and KJR-120X2-TFBG-E

CCM09 *(to exhaustion)*

Remote controller of a group (max. 64 units) or single units, allows for managing:

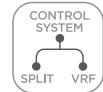

- ▶ ON/OFF - operating mode - temperature set-point - fan speed – automatic flaps oscillation
- ▶ Management of single unit / all units

Only with VRF:

- ▶ Unit error check
- ▶ Daily switch on / off timer
- ▶ Locking of single controllers
- ▶ Visualisation of function parameters
- ▶ Alarm visualisation
- ▶ Weekly scheduler

Note: the individual controllers can be used normally for managing the units.

ACCESSORIES and CONTROL SYSTEMS

CCM-180A/WS

Group control (max. 64) or individual units with 6.2" touchscreen display, allows you to manage:

- ▶ ON/OFF - operating mode - temperature set-point - fan speed - automatic flaps oscillation
- ▶ Management of single unit / all units
- ▶ Daily / weekly / annual scheduler (ON/OFF - operation mode - temperature set - fan speed - automatic fins oscillation)

Note: not compatible with mixed SPLIT / VRF systems

Only with VRF:

- ▶ Advanced energy management settings
- ▶ Unit error check
- ▶ Locking of single controllers
- ▶ Visualisation of function parameters
- ▶ Alarm visualisation

Note: the individual controllers can be used normally for managing the units.

CCM-270A/WS

Group control (max. 384) or individual units with 10.1" touchscreen display:

- ▶ ON/OFF - operating mode - temperature set-point - fan speed - automatic flaps oscillation
- ▶ Management of single unit / all units
- ▶ Daily / weekly / annual scheduler (ON/OFF - operation mode - temperature set - fan speed - automatic fins oscillation)
- ▶ Visualization of building plans
- ▶ Connectable via LAN
- ▶ Ideal for the management of mixed SPLIT / VRF systems

Only with VRF:

- ▶ Advanced energy management settings
- ▶ Unit error check
- ▶ Locking of single controllers
- ▶ Visualisation of function parameters
- ▶ Alarm visualisation

Note: the individual controllers can be used normally for managing the units.

Communication with BMS management systems (SPLIT/VRF)

SPLIT systems can be managed with the latest home and building automation technologies, using automation systems to coordinate them with all the other systems in the building (illumination, security systems, household appliances, etc.) and optimise energy consumption. The protocols that can be managed and their relative characteristics are specified below:

Protocol	Modbus	BACnet	LonWorks
	CCM18A	IMPP-BAC(A)	LonGW64
Compatible with VRF / SPLIT	●	●	●
Max. no. of connectible units	64	256	32
Management of basic functions (ON/OFF - Operating mode - Fan speed)	●	●	●
Reading of unit parameters	●	●	●

ACCESSORIES

Type	Appearance	Model	Article Code	Description	Compatible Series
		MBLCX	87022242	Multifunction board that makes the indoor unit available for Remote ON / OFF, Alarm port and XYE Port (required for connection of Wired controller, Centralized wired controller, Data Converter, BMS Gateway) The ON-OFF/Alarm/XYE/Wi-Fi port functions can be used simultaneously	STELVIO IH2-Y
Multifunction Kit		MKSS2X	89702342	Multifunction board that makes the indoor unit available for Remote ON / OFF, Alarm port and XYE Port (required for connection of Wired controller, Centralized wired controller, Data Converter, BMS Gateway) The ON-OFF/Alarm/XYE/Wi-Fi port functions can be used simultaneously	CRISTALLO 2 IMA1-Y
		MKCX	90252203	Multifunction board that makes the indoor unit available for Remote ON / OFF, Alarm port and XYE Port (required for connection of Wired controller, Centralized wired controller, Data Converter, BMS Gateway)	CONSOLE 3 IC3-Y
		NWMX	89142201	Wi-Fi kit for indoor units	All series
Kit Wi-Fi		WF-60A1-C	89132263	Smart port kit for the hiwall indoor unit management via Wi-Fi (it includes the adaptor and the USB key) - 2022 version	DUCT 2 ID3-XY BOX 2 650x650 IB3-XY CEILING & FLOOR 2 IF3-XY
		KFR-120Q-EDFJB-B	89132252	Adapter for connecting indoor units Box 2 950x950 to the Wi-Fi kit (includes adapter and USB key)	BOX 2 950x950 IA3-XY
Kit connection kit for TWIN system		FQZHN-01D	87002254	Branch Joint kit for LCAC TWIN systems	TWIN systems

ICONS GUIDE

ICONS GUIDE

ENERGY SAVING

	1W Stand-by Reduction of power consumption during the stand-by function.		Sleep Night operation program that reduce sound levels and maintain suitable temperatures.		Intelligent Eye Detector Infrared sensor that adapt unit operations following people presence.		Gear Let the user set the operation at standard, 75% or 50% energy consumptions
	ECO Energy-saving operation mode		Holiday away Energy-saving mode for long period staying outside home				

COMFORT

	Follow Me Temperature sensor built in the remote controller will sense its surrounding temperature.		Turbo This function gives you a boost in cooling and heating power for a period, and makes the room cool down or heat up rapidly.		Silent Deactivating audible warnings and switching off the display.		Super Silent Low noise operating profile
	Stepless Outdoor Fan Speed The fan speed is adjustable anywhere in the range 1%-100%		12 Grades Indoor Fan Speeds Up to 12 levels indoor fan speeds, ensure more accurate control and bring more comfortable airflow.		Stepless Outdoor Fan Speed The fan speed is adjustable anywhere in the range 1%-100%.		7 Outdoor Fan Speeds Levels Up to 7 levels outdoor fan speeds, ensure more accurate control and energy saving.
	5 Grades Indoor Fan Speeds Up to 5 grades outdoor fan speeds, ensure more accurate control and energy saving.		Anti cold air Cold air flow prevention if internal heat exchanger is too cold.		Temperature Compensation This function can revise this temperature difference to make a more accurate temperature control.		Multidirectional airflow Horizontal and vertical blades are motorised and remote-controlled
	360° Air flow 360° air outlet creates a soft and gentle air flow which circulates throughout the whole space and provides an even temperature distribution in the room.		Hot air flow The unit can distribute high temperature air even in colder climates, ensuring optimal comfort.		Auto Swing It distributes cool/warm air to maximum area by moving horizontal flaps automatically.		Wide air flow range Long supply airflow, for a better conditioning of every corner of the room.
	Low ambient temperature heating Compared to traditional air conditioners, the wide operating range allows the unit to operate in Heating even at very low ambient temperatures.		180° Louver Horizontal louver can rotate with a 180° angle, bigger than a standard unit		Breeze away Set the blades to avoid direct airflow		Cascade Quick cooling function that let the horizontal louver rotate automatically
							
							Humidity management The user can set the desired humidity and the unit will dry the air in a proper way.

RELIABILITY

	Refrigerant Leakage Alarm Notifies the presence of any refrigerant leaks.		Self-diagnosis function Once abnormal operation or parts failure happen, the unit will shut off automatically to protect the system. Meanwhile it will indicate protection or error code for fast service.		Emergency Function In case of temperature sensor failure, the unit operates in emergency mode and continues to ensure air conditioning.		Auto Defrosting Prevent evaporator from freezing and maintain dehumidifying effect under low temperature environment.
	Technical room conditioning The air conditioner can operate in cooling mode even at low outside temperatures.		Condensate drain pump Helps the indoor unit to dispose of condensation water.		Chasis Heating Belt Outdoor unit frame is equipped with a electric heater on the base to prevent the water presence due to defrosting, improving the efficiency of the heat exchange.		Compressor Heating Belt The compressor is equipped with a electric heater to prevent the presence of water due to defrosting, improving the efficiency of heat exchange.
	Back-up electrical heater An electrical heater helps the unit to operate at the worst conditions		Auxiliary heating source The unit can manage an additional external heating source		Opposite fan rotation The ODU fan can rotate in reverse to remove sand and dust, keeping the compressor clean.		

HEALTH

	High Density filter Better filter efficiency thanks to smaller holes for air passage		Cold Catalyst filter It eliminates formaldehyde and other volatile organic compounds (VOCs) as well as harmful gases and odors.		Self-Cleaning Indoor unit will continue running at special combined mode to blow and dry indoor evaporator after the unit switched off so as to keep clean and healthy.		Fresh air inlet Outside air can be lead into the room via a connection pipe, which keeps the indoor air fresh and healthy
	Purification filter Clean the air from smells, dangerous gas (VOCs), microbes (bacteria, virus, spores) and other particles		i-clean Indoor unit cleaning cycle that prevent odours and mould growing		Anti-legionella disinfection cycle to prevent the bacteria inside DHW tank		

CONVENIENCE

	Manual Switch Button You can easily turn on/off your AC by pressing manual switch button, without using a remote controller or any special tools.		Remote On/Off With a smartcontrol board, the air conditioners can be turned on/off via long distance control signals.		Error Alarm Port Port for remote alarm on the unit.		Wired controller Wired controller can be fixed on the wall and avoid mislaying. It's mainly used for commercial zone and makes air conditioner control more convenient.
	Central Control Management The centralized controller is a multi-functional device that can control up to 64 indoor units.		BMS Management Possible to manage the unit via BMS Software.		WiFi Control Possible to manage the unit via App.		Single/Multi MCompatible Compatible indoor unit for both single and multi system. It comes in handy for warehouse management.
	Fins Position Memory Function At each start, the air deflector will return to the last selected position.		Auto Restart If the air conditioner breaks off unexpectedly due to a power cut, it will restart with the previous setting mode automatically when the power resume.		Double condensate drain Both left and right sides of indoor unit are possible for drainage hose connection, easy for installation.		Timer Possible to program the unit switch on and off in 24 hours.
	Weekly Timer Possible to program the unit switch on and off during the week.		0.5°C Temperature Regulation Enhanced comfort, thanks to the temperature regulation with 0.5°C precision.		Automatic correction of the connection errors It automatically redirects any connection errors.		Voice control compatible Ability to manage the unit with voice, thanks to compatibility with Amazon Alexa, Google Home.

FOR OVER 35 YEARS WE HAVE BEEN OFFERING SOLUTIONS FOR SUSTAINABLE COMFORT AND THE WELL-BEING OF PEOPLE AND THE ENVIRONMENT
